U.S. Sunlight Skylight Tube Accessories Available

to optimize almost any installation situation or intention

Cold Climate Lens Kit
Add extra insulation for particularly cold climates. Compatible with Chroma Skylight Tube.

Electronic Light Dimmer
Electronically control the amount of daylight your Skylight Tube transmits. Compatible with 14” Spectrum and Chroma models. Requires Rigid Tube Kit installation.

Light Kit
Add nighttime house-powered electric lighting - natural lighting in the daylight, traditional lighting at night. Makes the Skylight Tube the perfect replacement for recessed lighting fixtures. Compatible with Radiant, Spectrum, and Chroma models.

Rigid Tube Kit
Eight feet of highly reflective aluminum tube and two elbow joints allow for enhanced light transmission with your Skylight Tube installation. Additional 2 foot Rigid Tube sections available for extended installations - recommended up to 20 feet. Compatible with Spectrum and Chroma models.

Tile Roof Kit
Enables installation of your Skylight Tube on ceramic Spanish tile roofs. Compatible with Radiant, Spectrum and Chroma models.

Polycarbonate Roof Dome
For severe impact-resistance - perfect for commercial purposes. Compatible with 18” and 21” Spectrum models.
